

What is new on the T4A GPS Maps – Traveller's Africa 13.05

T4A GPS Maps 13.05 comes preloaded on a **2Gb micro SD** card with standard adapter, ready for **Plug & Navigate**.

This SD card can be used on most map capable **Garmin** units and has been tested with latest Nuvi models as well. ***This product is not compatible to iGO in car navigation systems, Android or iOS devices. For these platforms we have separate products.***

The SD card also contains **installation files for PC and Mac** users who want to install the maps on their computers for trip planning or for transferring maps to older Garmin units such as the 276c, 76csx, eTrex, etc.

The map growth is organic in nature. We received and processed **1 117 data submissions for version 13.05**. These data submissions not only contribute more roads and POI's to the map, it also improve the quality of existing data by means of corrections.

In **South Africa** we have completed the overhaul of the secondary road network. Where version 12.10 already had the bulk of these roads included, version 13.05 now has Gauteng, Limpopo, North West and Mpumalanga updated as well. A couple of major intersections has also been corrected.

Harare (Zimbabwe) and **Dar es Salaam** (Tanzania) have been updated with detailed city roads.

For the **T4A Africa Guide** which is included on the SD card as a GPI file, we have again added a huge amount of new content, especially on towns of **Botswana** and **Namibia**. This was as a result of our on-going research for our book on Namibia and Botswana. The **camp sites of South Africa** have also been updated to include contact details, descriptions and facilities.

The **road alerts** have been removed from the SD card as too many people find these intrusive when travelling. Road alerts have however been split into various categories and are available as a free download from the Tracks4Africa website.

The **Morocco** map has once again been updated with more detailed data and the POI's have increased by 17%.

Western Sahara as well as the **Ethiopia** map has seen both a 4% increase in road coverage and up to 7% in POI's.

Accommodation, Camping and **Places to Eat or Drink** have increased by more than 10% each, see next section for details. We have a dedicated team of people working on improving these listings in terms of coverage but also with regards to contact details, descriptions and other information which is made available as part of the **T4A Africa Guide**.

Map Coverage

- **724 637 km** of roads, detailed tourist coverage and fully navigable (1% increase from 12.10)
- **124 427** points of interest (4% up from 12.10)
- Most complete and detailed **protected areas (national parks, game reserves etc)** in Africa – **1451 parks** in total.
- **9 058 accommodation** listings (10% up from 12.10)
- **3 339 camp sites**, **the most complete camping data base in Africa** (13% up from 12.10)
- **5 011 places to eat or drink** (10% up from 12.10)

Tracks4Africa Map Coverage, version 13.05

T4A GPS Maps v13.05 coverage per map region
